

Brand Name : Tablet Cefizen-200

Content : Cefixime trihydrate 200mg

Mechanism of action : Cefixime is a semi-synthetic (partially man-made), oral antibiotic in the cephalosporin family of antibiotics. Cefixime stops bacteria from multiplying by preventing bacteria from forming the walls that surround them. The walls are necessary to protect bacteria from their environment and to keep the contents of the bacterial cell together; bacteria cannot survive without a cell wall.

How to use :

Each tablet is taken as prescribed by physician.

Disperse the tablet in a tablespoonful(15ml) of boiled and cool water before administration.

Keep out of reach of children.

Store in a cool, dry place. Protect from direct light.

Use in :

- Urinary Tract Infection(UTI).
- Upper Respiratory Tract Infection(URTI) & Lower Respiratory Tract Infection(LRTI).
- Otitis Media.
- Pharyngitis & Tonsillitis.
- Typhoid & Paratyphoid fever.
- Switch-on Therapy from Injectable Cephalosporins.
