

Brand Name : Tablet Haemforte

Content : Sodium ferredetate 231mg + Folic acid 1.5mg + Vitamin B12(cyanocobalamin) 15mcg

Mechanism of action :

Sodium ferredetate is a edta chelated molecule, hence directly supplies iron in the stomach and is readily and completely absorbed from stomach.

Vitamin B₉ (folic acid and folate inclusive) is essential to numerous bodily functions. The human body needs folate to synthesize DNA, repair DNA, and methylate DNA as well as to act as a cofactor in biological reactions involving folate. It is especially important in aiding rapid cell division and growth, such as in infancy and pregnancy. Children and adults both require folic acid to produce healthy red blood cells and prevent anemia. It helps the body make healthy new cells. Everyone needs folic acid. For women who may get pregnant, it is really important. When a woman has enough folic acid in her body before and during pregnancy, it can prevent major birth defects of her baby's brain or spine.

Vitamin B₁₂, vitamin B12 or vitamin B-12, also called cobalamin, is a water-soluble vitamin with a key role in the normal functioning of the brain and nervous system, and for the formation of blood. It is one of the eight B vitamins. It is normally involved in the metabolism of every cell of the human body, especially affecting DNA synthesis and regulation, but also fatty acid synthesis and energy production.

Why Sodium Ferredetate ?

Is a newly USFDA approved drug.

Compared to ferrous sulphate, it does not irritate gastric mucosa. So no belching. It can be taken with or without food(anytime during day). Plus there is very very less risk of iron overload compared to ferrous sulphate.

Compared to ferrous ascorbate, it has same bioavailability but less expensive than ascorbate salt.

How to use :

Each tablet is taken as prescribed by physician.

Keep out of reach of children.

Store in a cool, dry place. Protect from direct light.

Use in :

- Iron deficiency anaemia.
- Pregnancy & Lactation.
- In Blood loss during menstruation & surgery

Packing :

Each film coated tablet Haemforte is available in 1*10 blister packing.
